

The Company / The United Artists 藝術員劇團

Performance(s) solo
Danced & theatrical juggling

A space where wild beings, nomads, poets, human feelings, and impalpable forces live together by exchanging experiences, deep knowledges -- experiment and create. The United Artists's action is to connect with the culture in which its meshes, the world tilted, in a mirror of identities, by a poetic dimension. The United Artists integrated artists have human size skills and rather unusual ones, personal views, functioning outside all normalized models by the sad camouflage of boredom ... as far from wanting to fire using mortars FXZZ-164 on civilians.
